College Works Painting
1505 E. 17th Street
Ste 210
Santa Ana, CA 92705

To Whom It May Concern:

I am writing this letter to inform you that Jake Pfluger and his crew did a fantastic job painting our house this week. From the first knock on the door, Jake was very polite and easy to talk to. He was never "pushy" or rude, unlike some other people that come to our door! That, along with the fact that we had been talking about painting our house, is what led me to set up our initial appointment for an estimate. As I recall, Jake was very thorough in his explanation of how the program worked and what his involvement was as part of his job/management experience.

We were already familiar with the College Works program since they painted our house about 10 years ago when we lived in Naperville, Illinois, At that time, we were impressed with the professionalism of the students that were representing your company. So, there was no question that we were expecting the same service here. And, we received it from all three of these young men.

Mark and Eric seemed to have learned their jobs well and worked very well together. I was amazed at how quickly they completed the job and I was glad they were on those high ladders and not me! Jake seemed to have a good relationship with them also. They were always polite and courteous and I am sure that all three will be very successful with their future.

I will recommend and have already recommended, College Works, Jake, Mark & Eric to friends and neighbors, College Works is providing a very valuable service to their customers and a great opportunity to these college students.

Thank you again for another beautiful home transformation!!
