Stacey Hager
College Works Painting

Dear Stacey,

Now that our painting project is complete, we are happy to provide this recommendation to assist prospective future customers in the decision making process.

From the beginning, your estimate and approach were more detailed and more professional than the seasoned professionals we had consulted. The level of specificity assisted us in making an informed decision and assured us that we were all in agreement as to what was included in the project.

The project was started on schedule, and the painters worked diligently and quietly throughout the day to complete it in a timely manner. Your status updates and walk-around at the end of each work day kept us informed and provided an opportunity to address any concerns. And you tackled with a smile all the little extras that we pointed out along with way.

We are well pleased with the final results. Even Kris, the ultimate perfectionist, admitted that he would not have done a better job himself. And by now you know that that's a major endorsement coming from him!

Thank you for your diligence and care with our project. It was a truly a pleasure doing business with you. Please feel free to use us as a reference, or to send along anyone who'd like to see the quality of your work first hand.

Good luck at school!.

Sincerely,

Kris and Linda Mayer
