I contracted with College Work to paint my house in July, 2005. I found them to be very professional in my dealings with them. I was impressed with the way they explained their procedures on how my house would be painted... step by step. The crew that was assigned to paint my house introduced themselves to me when they arrived to work, and explained to me what they would be doing each time they came. I found Mr. Nick Saunders especially polite and professional in his dealing with me. His fellow partner Mr. Dan Righter also was very pleasant to work with. I liked the way that when they showed up to work they got right to it. They worked very hard and the job was completed when they said it would be and we're very satisfied with the results. A job well done.
