

College Works Painting Reference Letter
Pamela and Christopher Grassi
122 Sandy Island Drive
Brick NJ, 08723

We recently had our house painted by the manager of College Works, Samantha D'Amore, and her crew. Samantha met with us for an estimate and thoroughly explained the both company and what type of options we had for our home. She gave us the price of the job onsite and we decided on two coats of stain.

To whom it may concern:

We recently had our house painted by the manager of College Works, Samantha D'Amore, and her crew. Samantha met with us for an estimate and thoroughly explained the both company and what type of options we had for our home. She gave us the price of the job onsite and we decided on two coats of stain. The result has been not only an immense improvement on the look of our home, but the value as well.

Samantha's crew, Samuel Roth Rex S. worked hard and completed our home in just a few days! The water surrounds our home on three sides, therefore making it susceptible to wear and tear. However, Sam and Rex removed all of our problem areas, including all of the mold and mildew on our home with the product BioKleen. We could not be more pleased with the out come!

The quality workmanship and the care that Samantha and her team have taken with our property has exceeded our expectations. Her service was professional, dependable and reassuring. I highly recommend Samantha's company to anyone considering having their home painted.

Sincerely,

Christopher Grassi
