This is a letter of recommendation for Michael Lennon and College Works Painting.

My name is Roberta Frye and I recently had my exterior painting work done by College Works Painting. Michael was professional, dependable, responsible, communicated well and has excellent work ethics.

Michael gave me a detailed estimate and went through item by item what they were going to paint and also how they were going to prepare it.

They were very good at cleaning up each night when done painting for the day. The painters were courteous and respectful. Michael met with me at the end of each day to review that day's work and to address any questions or concerns.

I would recommend Michael Lennon and College Works Painting for your exterior painting needs. It was an extreme pleasure working with Michael and I would not hesitate to hire him again.
